LGBTQIA+ STEMM role models from the

**Queer Science Competition**

# Entering the competition

- Lots of people have heard of Alan Turing, but why don't we know more LGBTQIA+ scientists?
- We're challenging you to discover lesser-known LGBTQIA+ scientists, technologists, engineers, mathematicians and medics and to share their stories
- **We want to know whose life and/or work you find inspiring and why!**

The only scientist we have asked entrants not to champion is Alan Turing as many people already know his story...he is so famous he even has his own Wikipedia page, where you can find out lots more about him:
